Patients considering egg freezing are advised that frozen eggs will require ICSI to be fertilised, please refer to our patient information and price list for that treatment. Furthermore, frozen eggs are not guaranteed to achieve a pregnancy in due course and should be viewed as a back-up plan.

Patients considering treatment are advised that additional costs may be incurred, such as:

Follow up consultation (20 minutes)	£120 or 150	Additional freezing of embryos by vitrification (excludes storage)	£400
Follow up consultation (40 minutes)	£160 or 200	Cryogenic storage (per annum)	£300
Endometrial scratch & saline hysteroqram	£350	Laser assisted hatching	£450
Donor sperm (2 ampoules)	£1,000	EmbryoGlue®	£250
Elective sedation	£350	Time-lapse microscopy	£300
IntraCytoplasmic Sperm Injection (ICSI)	£800		
– reduced charge			

**Please note:** This price list is effective from 16<sup>th</sup> April 2018, serves for information purpose only and should not be treated as a formal service agreement. The above figures are intended as a guide and are subject to change without notice.
