

Price List – IVF treatment – multiFET

Screening tests

Female screening tests (<i>P10: female screen</i>) <i>Chlamydia, Gonorrhoea, FBC, Hep B sAg, Hep B core, Hep C, HIV, Rubella</i>	£150
Male screening tests (<i>P11: male screen</i>) <i>Chlamydia, Gonorrhoea, Hep B sAg, Hep B core, Hep C, HIV</i>	£100

All patients intending to undergo treatment need to undergo screening tests within 3 months of their first treatment cycle and 1 year of subsequent cycles for both the male and female partner. Female patients must also have had a cervical smear within the last 3 years.

IVF treatment with multiple frozen embryo transfers (FETs) is offered as a package and provides a discount of **up to 35%** based on the cost of a single fresh IVF cycle with deferred embryo transfer, (£4,400) and three frozen embryo transfer cycles (3 x £1,250) at a **total cost of £8,150**.

If you are considering purchasing this package, please speak to a nurse for the specific terms and conditions. This package is offered at the discretion of the management and may not be suitable for all patients.
