\* Please note that this is an estimate of the costs for medications as each patient will require a different amount of medications, please refer to our medications packages and individual medications price lists for details.

Patients considering treatment are advised that additional costs may be incurred, such as:

Additional follow up consultation	£130	IntraCytoplasmic Sperm Injection (ICSI)	£1,200
Thrombotic risk profile + autoantibodies	£600	Blastocyst culture (extended embryo culture)	£500
Natural killer cell assay panel and TH1:TH2 cytokine ratio	£700	Freezing of embryos by vitrification (excludes storage)	£400
Intralipid infusion (per infusion)	£350	Cryogenic storage (per annum)	£300
Saline hysteroscopy and endometrial scratch	£350	Laser assisted hatching	£450
Donor sperm (2 ampoules)	£1,000	Time-lapse microscopy (Embryoscope)	£500
Elective sedation	£350		

Abandoned cycles: cycles abandoned prior to egg collection will be billed for monitoring scans and blood tests plus a £50 cycle cancellation fee; at egg collection, if there are no eggs or failed fertilisation, or no embryo transfer takes place, we regret no refund can be issued.

Payment terms: treatment charges are due by 1<sup>st</sup> scan and all other charges are payable upon presentation.

**Please note:** This price list is effective from 18<sup>th</sup> April 2017, serves for information purpose only and should not be treated as a formal service agreement. The above figures are intended as a guide and are subject to change without notice.
