Medications for treatment for commissioning mother¹

£1,200

Medications for treatment for surrogate mother¹

£260

¹ Please note that this is an estimate of the costs for medications as each patient will require a different amount of medications, please refer to our medications packages and individual medications price lists for details.

Patients considering treatment are advised that additional costs may be incurred, such as:

Follow up consultation (20 minutes)	£150	Blastocyst culture ² (embryo culture past day 3)	£550
Follow up consultation (40 minutes)	£200	Freezing of embryos by vitrification (excludes storage)	£400
Endometrial scratch & saline hysteroqram	£350	Cryogenic storage (per annum)	£300
Elective sedation	£350	Laser assisted hatching	£450
Cervical smear	£50	EmbryoGlue®	£250
Thalassaemia screen	£80	Time-lapse microscopy	£300
IntraCyttoplasmic Sperm Injection (ICSI)	£1,300		

² Please note that all patients will be charged for blastocyst culture by default.

Abandoned cycles: cycles abandoned prior to egg collection will be billed for monitoring scans and blood tests plus a £50 cycle cancellation fee; at egg collection, if there are no eggs or failed fertilisation, or no embryo transfer takes place, we regret no refund can be issued.

Payment terms: treatment charges are due by 1st scan and all other charges are payable upon presentation.

Should your case require review by our Ethics committee, this will incur a £250 charge.

Please note: This price list is effective from 16th April 2018, serves for information purpose only and should not be treated as a formal service agreement. The above figures are intended as a guide and are subject to change without notice.
